

SRIKANTH N

CYBERSECURITY ENGINEER

📍 Chennai, India | ✉ Shreekanth162006@gmail.com | ☎ 8220155339 | 🔗 www.linkedin.com/in/srikanthn16

Summary

Pre-Final Year B.E. Computer Science & Engineering (Cyber Security) student pursuing an (Honours degree), with a strong foundation in network security, digital forensics, ethical hacking, and security operations. Completed four internships across cybercrime agencies and technology organizations, gaining hands-on experience in forensic investigations, fund trail analysis, cybercrime case support, and secure application development. Skilled in SIEM monitoring, threat detection, log analysis, incident response, vulnerability assessment, and security analysis. Passionate about cybersecurity, cloud security, and AI-driven security automation, with a keen interest in SOC operations, threat hunting, and cyber defence. Seeking opportunities to apply technical and analytical skills in real-world security environments.

Internship Experience

- AdroIT Technologies | IBM Naan Mudhalvan EBPL | Full-Stack Security Developer** Remote/Jan 2026 – Feb 2026
Built SLA & Escalation Module with React UI for ticket urgency status and automated deadline tracking.
Developed Node.js backend for breach detection alerts, reports, and performance analytics dashboards.
- Cyber Crime Wing Headquarters | Cybersecurity Intern** Chennai/Sep 2025 – Nov 2025
Co-developed a Fund Trail Analysis Tool to automate financial transaction flow tracking and fraud detection.
Integrated KYC mapping, duplicate detection, and state-wise summaries for real-time investigation support.
- VDT Edu Tantr Ventures Pvt. Ltd. | Cybersecurity Intern** Bangalore/Jul 2025 – Aug 2025
Trained in enterprise network security, ethical hacking workflows, and vulnerability assessment techniques.
- Cyber Crime Police Station | Cybersecurity Intern** Pondicherry /Feb 2025
Investigated digital incidents, analyzed forensic evidence, and documented findings in formal reports.
Monitored network threats and used Linux security tools for real-time incident handling.

Projects

- Helpdesk Ticketing System | React · Node.js · Express.js · MySQL · Tailwind CSS**
– Enterprise helpdesk with SLA tracking, automated escalation rules, role-based analytics & performance dashboards.
– IBM Naan Mudhalvan EBPL capstone project; implemented full security controls including auth and audit logging.
- Fund Trail Analysis Tool | Python · Django · JavaScript · Data Visualization**
– Converted bulk Excel transaction data into an interactive fraud-detection visualization tree.
– Integrated ATM/Cheque/Hold indicators and state-wise summaries to support financial cybercrime investigations.
- Smart Home Security System | Cisco Packet Tracer · IoT · Mobile Interface**
– Simulated full smart-home network with mobile access management and real-time alert monitoring.
– Designed to mirror real-world IoT deployment with device control and intrusion detection scenarios.
- Soil Nutrient Monitoring System | Python · IoT · Data Acquisition**
– Implemented IoT-based data collection and visualization pipelines for smart agriculture decision support.

Education

- Dhanalakshmi Srinivasan College of Engineering and Technology** 2023 – Present
B.E. Computer Science & Engineering (Cyber Security) – Honours (Pursuing)
CGPA: 7.71 / 10
- Sri Ayyan Vidyashram Higher Secondary School** 2021 – 2023
Higher Secondary Education (Science)

Skills & Abilities

- SOC Concepts (Learning):** SIEM, Log Analysis, Threat Monitoring, Alert Triage, Incident Response, IOC Analysis
- Digital Forensics:** Autopsy, Kali Linux, Disk Imaging, Evidence Collection, Chain of Custody
- Networking:** TCP/IP, Wireshark, IDS/IPS, Firewall Rules, Cisco Packet Tracer, Vulnerability Assessment
- Programming:** Python, Java, JavaScript (Node.js, React), SQL, REST APIs
- Tools:** Git, MySQL, Linux (Kali/Ubuntu), Tailwind CSS, VAPT, OWASP Top 10

Leadership & Volunteering

- Secretary** — Department Club, DSCET 2024 – 2025
- Joint Secretary** — Department Club, DSCET 2023 – 2024
- Student Council** — Member, DSCET 2023 – 2024

Certifications & Achievements

- ▶ Cryptography and Network Security — NPTEL — IIT
 - ▶ Foundation of Cloud IoT Edge ML — NPTEL — IIT
 - ▶ Cyber Security and Privacy — NPTEL — IIT
- 🏆 Academic Achievement: Secured 2nd Place in Anna University Examinations (2023–2024) — Cybersecurity Department.
